BEAM TARGET BLOCKS

wide blocks

narrow
blocks

DON'T TUMBLE UP ONTO AN EXPANDING BEAM AGAIN!

AAI's NEW Beam Target Blocks provide a wider landing or take-off zone when training on balance beam.

- Cover material is the same as our competition balance beam
- Constructed of a 3lb EPS with MDF wood top and bottom for strength
- Height strength webbing holds the two halves together while ratchet straps secure it to the balance beam
- Narrow Blocks are 2" wide and 36" long, expanding the beam up to 9" wide while maintaining a flat working surface
- Wide Blocks are 4" wide and 36" long, expanding the beam up to 11" wide while maintaining a flat working surface

405-120
